

HOW **TELEMEDICINE** CONNECTS **PATIENTS** TO **RESPIRATORY CARE**

CHRONIC RESPIRATORY ILLNESSES

require specialized care & daily management

Asthma

COPD

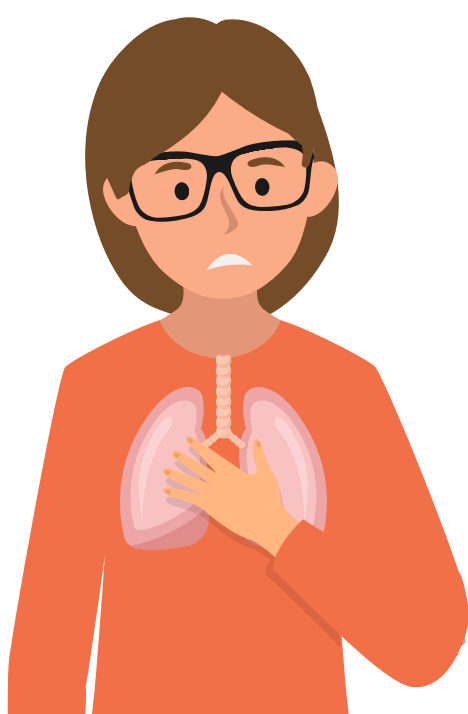

Ventilator Dependence

Pulmonary Hypertension

Cardiovascular Disease

Policies that support telemedicine can help patients access respiratory care by
VIRTUALLY CONNECTING PATIENTS WITH PROVIDERS

That includes virtual visits with respiratory therapists, who can help
PREVENT MINOR HEALTH ISSUES from escalating into life-threatening problems

Addressing questions & concerns

Routine check-ins

Treatment adherence

Device management

Dosage adjustments

Permanently expanding coverage for telemedicine helps keep patients with respiratory conditions
STABLE AND SAFE
