

# Prescription Drug Affordability Boards' **NARROW VIEW OF VALUE**

Prescription drug affordability boards typically include:

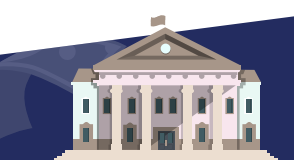

Health Economists

Health Insurance Representatives

**PATIENTS & HEALTH CARE PROVIDERS  
ARE OFTEN LEFT OUT.**

## PRESCRIPTION DRUG AFFORDABILITY BOARDS

Health economics  
& insurance costs

Quality-adjusted  
life year

Cost of medication  
to health care  
system

Perspective

Measurement

Consideration

## PATIENTS & PROVIDERS

Lived experiences  
& clinical expertise

Impact on  
individual patients

Patient lifestyle,  
history and individual  
preferences

By excluding patients & providers, prescription drug affordability boards take a **NARROW VIEW OF HEALTH CARE VALUE.**

This can leave patients with:

- ↓ Decreased access
- ↑ Increased costs

Patients & providers  
deserve a say  
**IN THE VALUE OF  
MEDICATION.**
