

## Ask the Right Questions

## Before Starting a **Biologic**

**By speaking with their clinician,** patients can feel informed about their decision to begin biologic treatment—innovative treatments made from natural and living sources.

### Understand the Treatment

**Ask:**

- What is a **biologic**, and how will it work for my condition?
- What are the potential **benefits** and **risks**?

### Learn About Administration

**Ask:**

- How will the treatment be **administered**?
- **How often** will I need the treatment?

### Plan for Insurance and Costs

**Ask:**

- Is the treatment **covered** by insurance?
- Are there **financial assistance** options available?

### Make an Informed Decision

**Ask:**

- How will I know if the treatment is **working**?

**Asking the right questions** helps you and your clinician choose the best path forward.
